**Domaine Info:**

- Founded: 2001 by Olivier Pithon, from a long time Loire family of vigneron
- Region: Roussillon
- Surface: 15 hectares (37 acres)
- Total Volume: 35.000 bottles (2,900 cases)
- Cultivation: biological and biodynamic
- Soil: Shale, Marl, Calcerous-Clay

The climate is Mediterranean, with hot dry summers, rainy winters, and moderate springs and autumns. With influence from the Tramontane wind, the local, gentler version of the Mistral blows from the north-west. It is dry, cold and often violent, carrying air from polar regions. In summer it brings clear blue skies and relief from the heat. In winter it just brings cold air.

Certified Organic by AB in 2002 and certified biodynamic by Biodyvin in 2010, Olivier is passionate about respect for the land. His commitment to the living farm is evident in everything he does in the vineyard and in the cellar.

“A wine to be drunk with friends, during a friendly meal. The simple pleasures of the life as eating, drinking laughing could summarize this P'tit Pithon.”
