 - Very slow alcoholic fermentation in temperature-controlled stainless steel tanks and generally ending by January
 - Malo-lactic fermentation follows
 - Matured in tanks on fine lees for 10 months

Solutr  and Vergisson.

The 26 hectares of the estate are shared between a mosaic of over 150 different plots of vines that are part of the "Grand Site de France" of Solutr  – Pouilly – Vergisson. The vines, with an average age of 40 years old, are exclusively of the Chardonnay grape variety. Most of these plots face the rising sun on gentle slopes that extend from the eastern faces of
